THE MOMENT YOU ARE EXPOSED IS THE MOMENT YOU NEED RSDL® NEUTRALIZATION

Within 2 minutes, RSDL removes or neutralizes chemical warfare agents and many pesticide-related chemicals.¹⁻⁹
Chemical warfare agent?  
Pesticide-related chemical?  
**Unexpected troop exposure?**

The moment your troops are exposed, can they be decontaminated?

- “...a tiny drop of a nerve agent, no larger than the head of a pin, can kill an adult human being within minutes after exposure” (Organisation for the Prohibition of Chemical Weapons)\(^{10}\)

- Pesticide-related chemicals may be just as toxic as chemical warfare agents\(^{11}\)

- While decontamination is crucial, Fullers Earth Powder decontaminants do not neutralize chemical warfare agents or pesticide-related chemicals and may cause cross-contamination\(^{5,7,12}\)

**The right skin decontaminant helps ensure your troops stay on mission**
Now there is a more effective way to protect your troops\textsuperscript{12,3}

Military forces around the world have already switched to RSDL\textsuperscript{®}.

- **RSDL removes or neutralizes:**
  - Chemical warfare agents within 2 minutes, including: tabun, sarin, soman, cyclohexyl sarin, vx, mustard, and T-2 Toxin\textsuperscript{1-8}
  - Many pesticide-related chemicals, including organophosphates such as parathion and malathion\textsuperscript{9}
- **Safe:** Leaves a nontoxic residue on the skin\textsuperscript{13}
- **Fast:** Just open, wipe the skin after exposure, and rinse when time permits
- **RSDL has a long shelf life of five years**\textsuperscript{*}

\textbf{Efficacy of RSDL Compared to M291\textsuperscript{3}}

- **5x More Protective**
- **36x More Protective**
- **87x More Protective**

\textbf{RSDL provided significantly greater protection than M291\textsuperscript{3}}

\textbf{Efficacy of RSDL Compared to Fullers Earth Powder MK Kits\textsuperscript{12}}

**RSDL removed or neutralized contaminants on the skin while Fullers Earth did not\textsuperscript{12}**

\textsuperscript{*}Storage temperature should be between 15°C to 30°C (59˚F to 86˚F). Store in original container protected from direct sunlight in a dry, cool area. Keep container tightly closed until ready for use.
RSDL® has a proven heritage:

- Deployed for use by warfighters in both Gulf wars
- Currently protects military, first responders, and ministries of defense in over 30 countries worldwide.
- Has US Department of Homeland Security SAFETY Act certification

Neutralize the threat. Order RSDL today.

To learn about ordering RSDL, call 1-888-773-3266.

† Important Safety Information:
For external use only. Contact with eyes and mucous membranes should be avoided. In emergency conditions, RSDL does not require immediate removal from skin, but should be rinsed as soon as it is safe to do so. An ingredient of RSDL may be absorbed. Studies with RSDL left on the skin for 24 hours showed minimal adverse effects, however some patients have been known to experience minor skin irritation.
